

SUTURE PAD SUTURE SIMULATOR LARGE

The Suture Pad is a high-quality silicone training model designed for practicing surgical suturing techniques. Ideal for medical students and professionals, it provides realistic conditions for developing sewing and knotting skills.

- **Realistic Texture:** Made from durable silicone that mimics the feel of human skin.
- **Versatile Training:** Suitable for practicing a wide range of incision and suturing techniques, from simple to complex procedures.
- **Durable Materials:** Made with high-quality silicone and polyurethane for long-lasting use.
- **Handmade in Germany:** Each model is handcrafted.
- **Easy to Clean:** Can be cleaned with alcohol or disinfectant for superficial dirt.
